Application/Control Number: 10/657,689

Art Unit: 2863

## **DETAILED ACTION**

## Allowable Subject Matter

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance:

The independent claim 1 recites "e) correcting for said one or more errors if said one or more errors includes misidentification of ultrasonic signal arrival time in at least one measurement for said ultrasonic signals". This feature in combination with the remaining claimed structure avoids the prior art of record.

The independent claim 20 recites "electronics to calculate arrival times for said first ultrasonic signals and said second ultrasonic signals and to determine the presence of errors in said calculations of arrival times by comparing a set of diagnostics to a set of values to establish the presence of deviation by said set of diagnostics from said set of values, said electronics correcting for said errors if they exist.". This feature in combination with the remaining claimed structure avoids the prior art of record.

U.S. Patents 6,226,598 to De Vanssay et al and 6,634,240 to Wallen employ calculations to identify arrival times in ultrasonic flow meters, but do not correct data taken in error.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen J. Cherry whose telephone number is (571) 272-2272. The examiner can normally be reached on M-F 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Barlow can be reached on (571) 272-2269. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
